**DAYMAP PARENT PORTAL QUICK START GUIDE**

**Daymap Connect** is an extension of the *Daymap Learning Management System* which provides parents with access to key school and student information both at home and on the go. Our easy-to-use system allows parents to create and manage their own accounts for Daymap Connect, requiring only one login and password per parent (with the option to provide multiple logins) to access details for all of their students enrolled in the school.

The screen above is the Daymap Connect **log in screen**. This can be found by using the URL address that your school has provided. If you are a new user then select the “**New User?**” option. Once prompted on the next screen you will be required to enter your email address (this must be the email registered at the school) and a student code (this will be provided by your school). Once you have entered the details a username and password will be sent instantly to your email account.
